

Pure Compatibility, Pure Stability, Pure Design

PE-405 Pure Embedded Ethernet Evaluation Kit

- ✓ Embedded Ethernet evaluation kit
- ✓ Quick, easy access to all [PE-505](#) functionality
- ✓ Simplifies integration into test systems
- ✓ Test and debug prototypes before committing to a design
- ✓ Monitor power consumption, self-test button, link header, LEDs
- ✓ Instant start-up – USB power option

[PDF Datasheet Download](#)

Allows easy access to all features of the PE-505 and allows for further testing and debugging within a prototype system before any commitment to custom fixtures or designs is made.

Evaluation Kit includes:

- [PE-505](#) 10/100 5 Port Industrial Ethernet Switch
- Mating board (breaks out all ports and functionality to RJ45 or usable headers)
- USB cable
- MicroMatch to RJ45 adaptor cable
- 4 x MicroMatch 4-way headers
- 1 x MicroMatch 8-way header
